

Repeal Sunday Hunting in West Grey

On March 19th the Ontario Federation of Anglers and Hunters gave a presentation to West Grey Council about Sunday gun hunting. In one fell swoop, council approved Sunday hunting.

We did not know... residents were not informed that Sunday gun hunting was being considered

We had no voice... there was no chance for residents to share concerns

Controversial... Sunday hunting was voted down 12 years ago & hasn't been debated since

Council was incomplete... only 5 of the 7 councillors were at this meeting

There was no hurry... this won't take effect until the fall, why rush it through in one meeting?

Transparency & communication... West Grey made it a priority in their 2020 Action Plan to improve communication... why were residents left in the dark and not part of the discussion?

Please contact West Grey Council - demand they overturn Sunday
gun hunting and take time to receive input from all residents.
