The Cultural History of the Historic Saugeen Métis with Jenna McGuire

For over two centuries, the Historic Saugeen Métis have lived along the waters of Lake Huron. Join us to learn about their story featuring the local fur trade, maritime heritage, special local places and recent research into community artifacts as part of the celebration of the 200th anniversary of the Piche Wampum Exchange. Jenna will bring examples of traditional Métis arts and crafts, historic artifact replicas and some traditional foods to try.
